Allowable Subject Matter

Claims 44-47 and 49-53 are allowed.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

Takasu (5,326,991), Hu et al. (5,489,792) and Suzuki (4,896,194) appear to be the closest prior art reference. Applicant amended the drawings and the specification to disclose the embodiment of figure 3c. The embodiment of figure 3c is recited in claim 44. The new embodiment is not taught by Takasu, Hu et al. and Suzuki. Prior art teach substantially the entire claimed structure, as recited in claim 44, except forming the silicon carbide tub in a trench in a substrate.

Art Unit: 2811

Therefore, prior art do not teach or render obviousness the semiconductor structure, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
